Rossio Lachos

Full-Stack Web Developer

rossio.lachos28@gmail.com | +51979222222   LinkedIn | GitHub

Engineer in Computer Science with experience managing and overseeing the marketing department in a plastic surgery company and an unwavering passion for web development and informatics. Challenge-driven professional with solid problem solving skills, client management and interpersonal skills. Looking for professional opportunities to contribute my expertise and add value to a project or organization.

TECHNICAL SKILLS

Javascript	HTML	CSS / SASS	Git / Github
Ruby	Rails	React	Scrum Framework
PostgreSql	Relational Databases	API REST	Insomnia

EXPERIENCE

Dra. Rubí Tello Cirugía Plástica   Chiclayo, Peru
Manager and Social Media Strategist   2018 – 2022
- Led and launched the business from scratch, implementing effective strategies that tripled the company's sales within 6 months.
- Created all the company's social networks and site web design, successfully managing to publish creative designs and relevant content for the community.
- Managed to anticipate needs and resolve conflicts to ensure customer satisfaction, thereby achieving loyalty from our initial customers.

Hobra Systems   Chiclayo,Peru
Junior Programmer   2016 – 2018
- Developed and deployed web applications using HTML, CSS, and JavaScript.
- Collaborated with a team to deliver software projects on time.
- Demonstrated strong problem-solving skills and the ability to adapt to new technologies and programming concepts.

PROJECTS

Portfolio : A modern personal website showcasing my latest projects, responsive, built with React and Framer Motion.
Amazon : Developed an Amazon-like e-commerce app in JavaScript, enabling product search, cart management, and checkout.
Tweetable: A simple version of Twitter made in Ruby on Rails that uses features where you can register a user. As a user, you can create tweets, comment and give likes.
Get-that-home - API: Created a full stack real estate platform using Ruby on Rails and React, enabling users to search for, list, and customize property listings. Implemented user registration, custom search functionality, and real-time property status updates
